PROFESSIONAL SUMMARY

Senior Web Developer with 3+ years of hands-on experience building and shipping production web applications. Expert in Next.js, React.js, TypeScript, and modern frontend engineering — delivering responsive, performant, pixel-perfect interfaces for real users. Skilled in architecting scalable state management (Redux Toolkit, React Query), integrating AI-powered features with Claude, OpenAI, and Gemini APIs, and owning full deployment on Azure and GCP with CI/CD pipelines. Additional experience shipping React Native apps to the App Store and Play Store. Immediate joiner.

TECHNICAL SKILLS

Frontend (Primary): Next.js (App Router, SSR, ISR, SSG), React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Material UI, SASS, jQuery, Responsive Design, Figma-to-Code, Cross-Browser Compatibility

State Management & Data: Redux Toolkit, React Query (TanStack Query), Context API, REST API Integration, Axios, Fetch

AI & LLM Integration: Anthropic Claude API, OpenAI GPT-4 API, Google Gemini API, Streaming Responses, Prompt Engineering

Cloud & DevOps: Microsoft Azure, Google Cloud Platform (GCP), VM Setup, Nginx, SSL/TLS, Domain Configuration, CI/CD Pipelines, GitHub Actions, Linux

Mobile (Secondary): React Native, iOS and Android Deployment (Apple App Store, Google Play Store)

Backend (Working Knowledge): Node.js (basic), PHP, MySQL, WordPress (theme customization, plugin integration)

Tools: Git, GitHub, VS Code, Postman, Chrome DevTools

PROFESSIONAL EXPERIENCE

Senior Software Engineer <i>Bitpastel Solution Pvt Ltd, Kolkata, India</i>	Aug 2023 – Jul 2026
- Led frontend development of multiple production Next.js and React.js web applications — building responsive, performant UIs with Tailwind CSS and Material UI for live end users. - Architected scalable state management using Redux Toolkit and React Query to handle complex data flows, caching, and background synchronization across deeply nested component trees. - Integrated AI-powered features using Anthropic Claude, OpenAI GPT-4, and Google Gemini APIs — implemented streaming responses, prompt pipelines, and graceful fallback between providers. - Optimized web performance with Next.js SSR, code splitting, image optimization, and caching strategies — improving time-to-interactive and Core Web Vitals scores. - Owned the full cloud deployment lifecycle on Azure and GCP: VM provisioning, Nginx reverse proxy, SSL certificates, custom domains, and automated CI/CD pipelines with GitHub Actions. - Delivered React Native mobile versions of core products, publishing to both the Apple App Store and Google Play Store.	
Junior Web Developer <i>Proclivity Digitech, Kolkata, India</i>	Mar 2023 – Aug 2023
- Built pixel-perfect, cross-browser-compatible responsive web interfaces using HTML5, CSS3, JavaScript, and jQuery across Chrome, Firefox, Safari, and Edge. - Converted complex Figma and Adobe XD design prototypes into production-ready web pages and reusable components. - Customized WordPress themes and integrated plugins (Elementor, WooCommerce, ACF) for client websites.	

KEY PROJECTS

IRIS — Enterprise Web Application (iris26.variableq.com)

Stack: Next.js, Redux Toolkit, Tailwind CSS, REST APIs, GCP

- Led frontend architecture and development of IRIS, a Next.js enterprise platform — designed the complete UI system, authentication flow, and dashboard modules from scratch.
- Implemented complex multi-step workflows with Redux Toolkit, ensuring data consistency across deeply nested components and route transitions.
- Optimized performance using Next.js SSR and code splitting; deployed on GCP with custom domain, SSL, and CI/CD.

Young Pro — Web, iOS & Android Platform (youngprofessionals.global)

Stack: Next.js, React Native, Redux Toolkit, React Query

- Built an end-to-end career-networking platform — Next.js web app plus React Native mobile app published to both the Apple App Store and Google Play Store.
- Owned the full app store submission lifecycle: code signing, TestFlight betas, Play Console setup, compliance reviews, and post-launch updates.
- Integrated push notifications and deep linking, and shared Redux/React Query state between web and mobile to keep business logic DRY.

EDUCATION

Bachelor of Computer Applications (BCA)

George Group of Colleges, Sealdah, Kolkata

ADDITIONAL INFORMATION

Languages: English (professional), Bengali (native), Hindi (fluent)

Availability: Immediate joiner — open to full-time roles, hybrid in Kolkata or fully remote.
